

Relative interaction interval width (reference: AD)

Noncollapsibility without confounding
(no aggregation bias)

Noncollapsibility with confounding
(aggregation bias)

- DA
- Equal weights SWADA
- Interaction weights SWADA
- Minimum of three weights SWADA
- Minimum of total variance
- Prevalence-adjusted DA
- Separate MAs (DA and AD)
- Separate MAs CE (DA and AD)
- Smaller subgroup weights SWADA
- Study size weights SWADA
- Within-trial framework
