

Relative subgroup interval width (reference: DA)

Noncollapsibility without confounding
(no aggregation bias)

Noncollapsibility with confounding
(aggregation bias)

DA

Minimum of three weights SWADA

Separate MAs (DA and AD)

Study size weights SWADA

Equal weights SWADA

Minimum of total variance

Separate MAs CE (DA and AD)

Within-trial framework

Interaction weights SWADA

Prevalence-adjusted DA

Smaller subgroup weights SWADA
